Corey McCann - 21ccm12@queensu.ca
Aatif Mohammad - 22am37@queensu.ca
Benjamin Leray - 21bl45@queensu.ca

**Corey**

Updated the logic in app.js to switch from using in-memory data to using data from the seeded database, ensuring all routes utilize the new database structure

**Ben**

Created the seat model for the database and the file that seeds the database for seat maps.

**Aatif**

Created the flights model for the database and the file that seeds the database with random flights.
